

Woman of all countries – unite

This is the motto of the VI. International Poster Exhibition Leipzig 2023 will take place.
August 29 to September 15, 2023

Organized by the association plakat-sozial e.V. in cooperation with the event
“Tage der Industriekultur” 2023

The association plakat-sozial e.V. calls on poster artists worldwide to submit posters under the motto **“Woman of all countries – unite”** to the VI International Poster Exhibition.

We all know that in many countries women are still not allowed to participate in public life on an equal footing. Their rights, which we take for granted, are restricted and determined by male dominance. In many countries, women are fighting for their equal rights. It is the concern of our association plakat-sozial e.V. to support these efforts.

With the means of the poster we want to set a sign that we stand at the side of these women and that it is also our goal to achieve equal rights for all women.

We appeal especially to women poster artists to participate in our exhibition.

For the VI International Poster Exhibition, there are some changes in the rules of entry.
